

## Unit 2: Lesson 5 – Spread and Accuracy of Online Information: A Case Study Related to Vaccines

Read the executive summary of the Center for Countering Digital Hate (CCDH) study, “The Disinformation Dozen,” and answer the following questions.

1. How did the CCDH determine which people to include in “The Disinformation Dozen?”
2. Give two examples of what the CCDH found when they analyzed anti-vaccine content. Make sure at least one example includes a specific measure of how much of the content could be attributed to “The Disinformation Dozen.”
3. Give two examples of how the CCDH notes social media platforms are failing to control the spread of disinformation from “The Disinformation Dozen.”
4. List four recommendations that CCDH suggested to help counteract the spread of disinformation on social media platforms.
5. Which recommendation do you think would be the most effective and why? If you don't think any will work, explain why. Use the back of the page if you need additional space.
